SYMPTOMS OF A DISEASED LIVER.

Pain in the right side, under the edge of the ribs, ncreases on pressure; sometimes the pain is in the eft side; the patient is rarely able to lie on the left side; sometimes the pain is felt under the shoulderblade, and it frequently extends to the top of the shoulder, and is sometimes mistaken for rheumatism in the arm. The stomach is affected with loss of appetite and sickness; the bowcls in general are costive, sometimes alternative with lax; the head is troubled with pain, accompanied with a dull, heavy sensation in the back part. There is generally a considerable loss of memory, accompanied with a painful sensation of having left undone something which ought to have been done. A sngnt, dry cough is sometimes an attendant. The patient complains of weariness and debility; he is easily startled, his eet are cold or burning, and he complains of a prickly sensation of the skin; his spirits are low; and although he is satisfied that exercise would be beneficial to him, yet he can scarcely summon up a very lamentable event occurred on the fortitude enough to try it. Increase of City Debt.

To the Editors of the Dispatch: In the face of continued depreciation of real-estate values-when property assessed at \$30,000, and in eligible situations in the West End, has recently sold for \$15,000some public-spirited gentlemen seem anxious to persuade our people to issue city and \$60 for such bonds worth now \$30.

These gentlemen we understand-they but follow their interests, to which mankind are slightly prone. But is it to the interest of this city, or any other, to increase its debt by issuing new bonds? If we all approve the clause in our State Constitution which sternly pro-

hibits the increase of the State debt, is not

the same rule good for cities? Let us see: The city revenue has within the last few years shrunk some \$40,000 or \$50,000, when our city was compelled to conform to State assessments. Now it is plain that when reassessment comes in 1880 the city taxes will, with diminished revenues, be advanced to not less than 2 per cent., if not more. How do our substantial and thrifty men like the idea of paying not less than 24 per cent .- State and city taxes? Some years since some of these very gentleof the city to railroad enterprises advocated the amendment of the city charter by which the city was prohibited from exceeding in her debt 18 per cent. of her assessed values, a maximum now reached if we are to build a new pump-house, as already determined

Do these gentlemen mean, in the face of depreciated values and probable increase of taxation, to ask another act of Assembly

amending our charter? Has it occurred to them that upon the faith of that 18 per cent. limitation the city credit was greatly enhanced, and a large number of bonds have been bought by fiduciaries and others who will claim their vested rights and deny the legal right of the city to impair the value of their bonds by

issuing new bonds? Already capital is flowing into United States bonds because of the disquietude produced by these and other schemes, and we must see the force of the remark made by President Hayes in a speech in the State of Ohio, that "no-State, city, town, or county should be allowed to issue another bond.

It would be death to the rings, but to the tax-ridden people nothing but SAFETY.
